

SERGIO A. RUIZ VÉLEZ

SENIOR SOFTWARE DEVELOPER

shecho27@gmail.com | +57 314 392 3234 | Itagüí, Antioquia 055411, Colombia

SUMMARY

Senior Software Developer with a strong track record in the React.js and React Native ecosystem for building scalable user interfaces. Expert in the software development lifecycle, leading technical teams, production deployments, and optimizing workflows using artificial intelligence tools (Copilot, Kiro, OpenCode) and specification-driven methodologies (SDD). I am currently expanding my technical expertise into Angular, applying my knowledge of component architecture and design patterns to develop robust enterprise applications. I am committed to following best practices, writing clean code, and using agile methodologies to deliver high-value solutions.

TECHNICAL SKILLS

- Frontend: React.js, React Native, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Styled-components, SASS, Redux.
 - Backend & Cloud: Node.js, PHP, SQL (MySQL, PostgreSQL), AWS.
 - Tools, AI & Methodologies: Git, Testing, GitHub Copilot, Kiro, OpenCode, Specification-Driven Development (SDD), Scrum, Kanban
-

PROFESSIONAL EXPERIENCE

Sr. Frontend Developer

Apr 2022 - Jun 2026

Carroya S.A.S. - Remote

- I developed key features for the mobility ecosystem's mobile app, improving the end-user experience.
- I reduced response times to QA issues by optimizing and refactoring critical components in React Native.
- I co-led the deployment of releases to development, staging, and production environments, ensuring the integrity of the software lifecycle.

UX I Developer

Jul 2021 - Apr 2022

Bavaria S.C.A. - Bogotá D.C.

- I developed scalable web platforms used by partner companies in four countries in the region (Ecuador, Peru, Mexico, and Colombia).
- I ensured product stability by implementing comprehensive functional tests within agile development cycles.
- I successfully managed the deployment of releases in development, staging, and production environments, minimizing downtime.

Technology Area Coordinator

Feb 2020 - Jul 2021

Edemco S.A.S. - Medellín

- I led the modernization of the corporate website and the optimization of the e-commerce platform, improving the company's digital presence.
 - I oversaw the development cycle of specialized applications for civil engineering project management, ensuring compliance with technical requirements.
 - I managed access control and permissions within internal systems, ensuring information security and governance.
-

EDUCATION

Platzi Master Program

2020 – 2022

Platzi

A personalized program focused on improving skills in web development, front-end, back-end, and data science. As I am specializing in front-end development, I am constantly involved in projects designed to enhance my skills as a developer.

Systems Engineering

2008 – 2015

University of Cundinamarca

As part of my undergraduate internship, I participated in a project led by the ICT Office of the Fusagasugá City Hall, with the goal of setting up Moodle e-learning platforms at each of the municipality's public schools.
